## SHORT METRE POLITICS.

News Items on the State and County Campaign.

Notes Gathered From Various Sources and Given In a Condensed Form.

The Republicans held a pow-wow at the court-house last night, and the gathering was addressed by Dr. C. V. Roman. He claimed that the Republican party was the father of the present public school system, but gave the Democrats the credit of aiding them in the matter. He, however, failed to tell his hearers that the Democrats of this city and county are paying taxes to educate the colored children of the county, and but for this they would have no schools at all. He failed to tell them that the white people of Clarksville are now practically paying for the education of every colored pupil going to the public schools. This is a fact, yet a Republican will get up and make a speech square against the interests of the people who are educating their children. Who pays the money in Clarksville to run colored schools ten months in the year? The Democrats of the city pay nearly all of it and yet the cry goes up that public schools are being run by the Republican party. The school money paid by Republicans in Clarksville would not pay the running expenses of the colored schools two months.

The Legislative candidates were off early this morning for Jordan Springs, where they spoke to-day. They are making a close canvass and will be elected—every one of them.

Hon. Benton McMillin passed through the city yesterday on his return home from Michigan, says the American, where he has been to deliver three speeches, at the request of the Democratic National Committee. Mr. McMillin reports Democratic prospects in the West as very encouraging. He spent Monday in Indianapolis and conferred freely with the State committee and a number of leading Democrats from various portions of the State, and he says that all expressed the greatest confidence in the Democrats carrying the State, both for Cleveland and the candidate for Governor. He was urged by the committee of Indiana to remain in that State and speak up to the day of election, and especially to be present and speak Saturday night next at a grand rally in Indianapolis. He was compelled to decline, and he was also compelled to decline a pressing invitation to spend the week in New York State, feeling that his first duty was to his own people. He went direct to Carthage yesterday, and will be engaged in speaking in his own district up to the day of the election.

W. J. Broadus, editor of the Erie News is in the city to-day and brings encouraging reports of the Democratic outlook in Houston Co. He says the straight ticket will carry the county by a nice majority, and that Baxter Watkins will get every Democratic vote in the county.

A dispatch was received here at the office of Duncan & Burch from New York asking them to place a bet of \$10,000 even on Harrison's election. Before the matter could receive attention information came that the bet had found a taker in New Orleans, and that the New Orleans party was desirous of repeating the bet. As this could not be arranged, he offered to make it \$12,000 against \$10,000, and that was likewise declined.—American.

A barbecue and public speaking will be held at Central Chapel, in the 21st district, to-morrow. The speakers announced for the occasion are Judge C. W. Tyler and the legislative candidates. A large crowd is expected.

On Friday a barbecue and public speaking will be held at Vernon Furnace, in the 20th district, at which Judge Tyler and the legislative candidates will speak.

## TO BUSINESS MEN.

Mr. Cleveland Makes a Great Speech in New York.

NEW YORK, Nov. 2.—Grover Cleveland spoke before the Business Men's Democratic Association last night in the Lenox Lyceum, Madison avenue and Fifty-ninth street, devoting his entire attention to charges that predictions of Republican success were "based upon the ability of that party to purchase the votes of the people" with money contributed by protected manufacturers. The audience numbered about 2,500 persons, and the two tiers of boxes were occupied mainly by women. The hall was handsomely decorated and Cappa's Seventh Regiment Band furnished music. Joseph O'Donoghue escorted the ex-President to the platform at eight o'clock. Mr. Cleveland was enthusiastically cheered again and again. Men waved their hats and small American flags fluttered eagerly from the hands of women in the boxes. Mr. Cleveland bowed repeatedly in acknowledgment. The cheering was renewed vigorously when, after the routine business had been gone through the chairman, J. Edward Simmons, president of the association, introduced the ex-president, who spoke at length on the political issues of the campaign. He made a great speech and was vociferously applauded.

## BRITISH ELECTION METHODS.

The following appeared as an advertisement in the Newcastle (England) Leader: "Refuse not against me, O mine enemy! when I fall I shall arise; when I sit in darkness the Lord shall be a light unto me.—Micah vii, 8."

Election prayer meetings of all able to attend will be held in the city of the Right Hon. W. E. Gladstone's and the Hon. John Morley's present line of policy toward Ireland and the British empire will, God willing, be held in the upper central hall, Hood street, Newcastle, beginning on Monday night first, Aug. 22 at 9 o'clock to about 10, and continuing each night up to and including Thursday next. The hall is engaged for Friday; but notice of a general praise and thanksgiving meeting for victory, of which we feel well assured, if only we will do our duty, will be held on that evening will be given during the week. Ladies as well as men welcome and invited.

Canvassers are all expected to thoroughly finish up their day's work, for it will be folly to come to seek God's blessing on ineffectual and unproductive efforts. Praying or talking will be entirely out of place. We gather to meet with God—not to dispute with man. Pray for the presence and power of the Holy Ghost before coming or you had better stay away. We mean business for national righteousness, and cannot afford time for trifling. Ireland waits for justice; China and India cry out against our iniquitous opium business, and Great Britain groans under the iron heel of the cruel curse of the drink traffic, which we have just sent Mr. Hammond into parliament to uphold. Hymnbooks will be provided.

Brief expositions of Scripture, bearing on the present Liberal policy and contest and the late defeat in Newcastle, will be given by various speakers. Written difficulties of Christians who are conscientiously, at present, unable to support Mr. Morley will be answered briefly on the following evening, or privately if preferred. Impromptu questions not allowed. Prayers must be brief—not more than three or four minutes—not that many may take part, and bearing only on matters of public policy and not on private personalities. Collection at doors to defray cost of hall and advertising only. Any surplus to go to Newcastle infirmary, and a cash account rendered in Daily Leader.

Amateur Bicyclists versus Professionals. It would be a hopeless and a thankless task to even attempt to raise the present cyclists to a pure amateur basis. I fear they are imbued with the taint of professionalism beyond redemption; they do not want a pure amateur basis; by their own confession they would prefer money prizes, and they are racing today solely for what they can make out of it.

It must be extremely mortifying to American sportsmen—it is to me—not to be able to point with pride to the fast riding of our racing cyclists as the work of amateurs. How can one be proud of a countryman, be his work ever so clever, who is riding under false colors, which is tantamount to saying he is leading a dishonest life? A man who is dishonest in his sport I would not trust in any walk of life. There are no degrees of honesty.

I claim that some of the manufacturers and some of our clubs are responsible for the souls of many unsophisticated young men whom they have led astray. I have no language strong enough to express my contempt and the contempt of all fair minded men for the officials of clubs who will deliberately pollute the pollution of innocent and ignorant lads for the sake of securing a few more points than the rival club.

This question of legislation in amateur sport is too lightly considered and entrusted too often to men not in touch with its true and higher significance. Sport is an educator of the boy; if he is honest and fair in that he will follow a similar course in the more serious walks of life. If a trickster in his play he is likely to carry it into his business.—Caspar W. Whitney in Harper's Weekly.

## A Cure for Rheumatism.

Dr. P. A. Skinner, of Texarkana, Ark., is an enthusiast in the praise of Chamberlain's Pain Balm. He used it for rheumatism, and says: "I found it to be a most excellent local remedy." For sale by Owen & Moore, Druggists.

## TO DRIVE AWAY MELANCHOLY

The President Has Plunged Vigorously Into His Work.

WASHINGTON, Nov. 2.—President Harrison is back at his desk, saddened and subdued, but even more industrious than of yore. It is as if he were trying to find in the faithful and laborious doing of the routine work of his office an escape from brooding melancholy and a goal to prick up the lagging hours. In the evening he especially prizes the society of his grandchildren, but steals away early to his lonely bed chamber.

Mrs. Harrison's brother, Judge John T. Scott, of Port Townsend, Wash., arrived Monday. He started to attend the funeral at Indianapolis, but did not arrive in time. He will be the president's guest for a few days.

## HORRIBLE EXPLOSION.

A Laborer Sends a Candle Into a Well and the Country Shakes. SOUTH CHARLESTON, O., Nov. 2.—An explosion, terrific in dimensions and perhaps fatal in results, occurred here Monday evening. The well on the premises of H. E. Bateman had become worthless on account of the water tasting and smelling of gas. While a laborer, Jake McDonald, was pumping it dry he sent a burning candle in to see whether it was safe to venture down the well. At this instant that portion of town was shocked by a terrible explosion. It blew the platform and part of the porch up, blew off screen doors and shook the house until the foundation has settled. It will perhaps result in fatal injuries for McDonald, as he was badly burned all over and is in a critical condition.

## SAW THE FIGHT.

Encounter Between Rival Lovers Results in a Probable Murder.

SOLDIER, Ky., Nov. 2.—The mad jealousy of two rival lovers over a girl led to a bloody fight and a probable tragedy Sunday night. For some time both Jesse Perkins and Harry Ray have basked in the affections of a young lady. They both attended church and when about half way home, Perkins, who had taken the girl home on horseback, overtook Ray, who had evidently been awaiting him. Hostilities began at once and the fight lasted about thirty minutes, when Ray cut his knife and cut his antagonist twelve times in various parts of the body. When found later Perkins had nearly succumbed from loss of blood, and will no doubt die. Ray has fled.

## SCARED THE MESSENGER.

A Seven Hundred Dollar Job by Georgia Train Robbers.

BIRMINGHAM, Ala., Nov. 2.—The southbound express train on the East Tennessee, Virginia and Georgia railroad was held up just south of Piedmont Monday night by two masked men. They pulled the bellcord just after the train left the tank and when the train slowed up at a little station called Doupman's they appeared in the express car and made the messenger deliver \$700. They then went into the mail car and got a lot of valuable packages. The whole thing was done in three minutes. Express Messenger J. H. Timmer is certain there were only two men, but he does not know whether they were white or black.

## WHERE THOSE FAT-TAILED SHEEP ARE.

WASHINGTON, Nov. 2.—The department of agriculture still receives numerous inquiries from various parts of the country regarding the fat-tailed Persian sheep imported into this country by Mr. Beale, late United States minister at Leghorn, and consigned to the department. The sheep were sent to Mr. C. P. Bailey, of San Jose, Cal., owner of a large Angora goat ranch. Two of them were presented to the Golden Gate park at San Francisco; two of them to the agricultural experiment station, California, and three were taken to Messrs. Haggin and Carr, of San Joaquin valley, for experimental purposes. The others were shown at the state fair at Sacramento and were then taken to Mr. Bailey's ranch at Monterey, Cal.

## DR. PIERSON'S RETURN.

LONDON, Nov. 2.—Rev. Dr. Pierson, of Philadelphia, was not cordially received at Spurgeon's Tabernacle Monday evening. This was Dr. Pierson's first appearance in his new capacity, since his return from the states. When he stepped forward to open the meeting many worshippers applauded him. There were slight symptoms of dissent from the rear of the room to indicate that the partisans of James Spurgeon and Thomas Spurgeon had left the meeting entirely in the hands of Piersonites. A member arose and demanded to know if Dr. Pierson was a believer in immortality. A row was occasioned thereby, ending in the forcible ejection of several persons from the church.

## THE OPERATORS WIN.

CHICAGO, Nov. 2.—All the trouble between the telegraph operators and the Gulf, Colorado and Santa Fe road was settled at a conference by President Marven and General Manager Robinson representing the railroad, and Chief Ramsey, of the Order of Railway Telegraphers, and a committee of the order representing the operators. The operators gained their point. Hereafter the minimum rate of wages of the operators will be \$35 a month. That of the train dispatchers will be \$120. Shorter hours will prevail and pay will be given for overtime, etc.

## WOMEN FIGHT AT TOLEDO.

TOLEDO, Nov. 2.—Mrs. Frank Baller, wife of the night clerk at Hotel Hamilton, and Mrs. E. H. Dewey "came to blows" on the streets because Mr. Dewey and Mrs. Baller took dinner together. The angry wife met her pair, and, when the husband skipped, jumped on to Mrs. Baller and a sensational fight took place. Mrs. Baller's husband left her some time ago, and although Mr. Dewey and the woman have been taking their meals together nothing was thought of it.

## FATALLY BURNED.

MORGANTOWN, W. Va., Nov. 2.—The main belt of the red mill engine of the Bradock wire works here broke, and threw all the machinery out of gear. Rods going through the rolls were tangled up, and one, which was red-hot, was wrapped around the body of Charles Anderson, a roller, and he was fatally burned.

## NO NEW TRIAL.

Can Dead Men Have an Earthly Court. The O'Sullivan Case.

OTTAWA, Ill., Nov. 2.—The supreme court has rendered a decision in the O'Sullivan case, denying the application of the attorney for a new trial. This motion has been denied by the court on the ground that a judgment might as well be entered now as prior to the death of O'Sullivan, as there is no authority in common law for the prosecution of a writ of error by the representatives of a deceased person upon a judgment rendered against the deceased in life under indictment for felony. Continuing, the court says:

"If this motion shall be granted, we must either affirm the judgment below and ordered it to be executed or reverse it and arrest it and order a new trial for the defendant. But in either case the order can be effective only upon the assumption that some one representing or standing in the place of the dead man can be affected by it. A judgment can not be enforced when the only subject matter upon which it can operate has ceased to exist. When the defendant ordered to be punished on death, the execution of the order is absolutely arrested. For the future it is entirely a nullity as any subsequent judgment arresting it can possibly make it to be."

## A HERO PROMOTED.

He Remained in a Magazine and Put Out a Fire.

NEW YORK, Nov. 2.—H. A. Ellers, gunner's mate on the United States cruiser Philadelphia, has been discharged from that vessel and from the navy in order that he may accept an appointment as acting gunner in the navy. Ellers is the seaman who remained at his post in the magazine and put out the fire caused by a number of slow burning powder grains which were blown through the screens and down into the magazine passage by a premature discharge on deck. The accident happened during the sham battle at Fort McHenry near Baltimore Sept. 7. The recommendation for appointment as a warrant officer is a good one. The appointment as gunner carries with it a salary of \$1,500 at sea and \$800 on shore duty, with a regular increase every three years up to twelve years from date of appointment, when the salary is \$1,800 at sea and \$1,000 on shore duty.

## EFFECTS FIFTY THOUSAND.

New York Wiremen and Affiliated Trades to do Out.

NEW YORK, Nov. 2.—The electric wiremen met Tuesday morning and decided upon a general strike. The walking delegates were appealed to and the decision was reached that all the affiliated trades should be called out, with the exception of the tin workers and bricklayers. Delegates started out Tuesday morning to call the union men off their jobs. The strike may effect 50,000 men.

## PRINCESS OF WALES' HEALTH RESTORED.

LONDON, Nov. 2.—A semi-official paragraph furnished to the papers says that the Princess of Wales, who is now at Mar Lodge, has entirely recovered from the depression of spirits with which she was afflicted immediately after the death of the Duke of Clarence, and which, it was feared at one time, would develop into permanent melancholia. Her royal highness is enjoying the numerous social visits of the neighborhood with great pleasure. This season's health is also quite restored and altogether the other members of the royal family are more than gratified with the change that has been manifested.

## THE GREAT UNWASHED.

CARSON, Nov. 2.—Jake Winters, a man who has not washed or shaved himself for twenty-five years, died in Carson Valley Sunday. When a young man he made a vow that until the Democratic party came into power he would go unwashed and unshaved. When Cleveland was elected he was reminded of his vow, but refused to take the necessary steps toward cleansing himself. The neighbors once attempted to wash him by force, but he got away, and threatened to kill any man who tried to clean him again. He was sixty years of age.

## HUGH O'DONNELL WRITES A LETTER.

PITTSBURGH, Nov. 2.—Hugh O'Donnell, now confined in jail, has written to a friend denouncing the "dishonorable conduct of the troops in filling the places of the strikers," and adds: "Outside of a few hot-heads, the conduct of our men has been most magnificent under the circumstances that have surrounded them. There have been just forty-seven desertions out of a total of 3,800 men. The situation has not materially changed."

## ATTEMPTED ASSASSINATION.

VIENNA, Nov. 1.—Count Julius Szapary, Hungarian minister, was shot at yesterday as he sat in the dining car of a train a short distance from Buda Pest. The shot passed through the window at his right hand and entered the back of his chair. The train was stopped and men were sent back to the spot at which the shot was fired, but no trace of the man who did the firing could be found.

## TERRIBLE HOTEL FATALITY.

McCOON, Neb., Nov. 2.—A coffee urn explosion set fire to the Burlington and Missouri River Railroad hotel here Sunday night. Mrs. F. S. Granger, the proprietor's wife, was burned to death. Her husband was fatally and her daughter dangerously burned. A Chicago traveling man named McGill jumped from a window and broke his hip.

## THE SARDINIAN FLOODS.

LONDON, Nov. 3.—A dispatch to the Reuters Telegram company from Cagliari, in the island of Sardinia, states that the floods on the island have destroyed 248 houses at Sans Perate, and that one hundred persons are supposed to have been drowned.

## DEATH DELAYED.

COLUMBUS, O., Nov. 2.—Among the decisions handed down by the supreme court Tuesday morning, is one granting leave to Frank Van Loo's attorneys to appeal his case to that court, and indefinitely suspending the execution of the death sentence.

## QUARANTINE AT PORT TOWNSEND.

PORT TOWNSEND, Wash., Nov. 2.—The crew of the American bark Cowitz, from China, on which there were several cases of cholera, has been quarantined in the quarantine stocks.

## A WEALTHY FARMER ROBBED.

A Circus Pickpocket Makes a Haul of Over \$2,000.

SHELBYVILLE, Nov. 2.—B. G. Green, a prominent farmer of this county, was yesterday robbed of over \$2,000. There was a show in town with its usual company of pickpockets. Mr. Green had drawn the money from the People's National Bank of this city when the confidence man struck him and persuaded him to go to the show grounds. The money was there stolen from his overcoat pocket. There is no clue as to the robber. Several others are known to have lost small sums and there is considerable excitement.

## BIG REWARDS OFFERED.

The Government Will Give \$1,000 Each for the Peytona Mail Robbers.

CHATTANOOGA, Nov. 2.—Capt. A. G. Sharp, of this city, Chief Postal Inspector of this district, has telegraphed the local officers at Piedmont, Ala., and the Sheriffs in the immediate vicinity, offering a reward on the part of the Government of \$1,000 each for the arrest of the two men who robbed a mail car at Peytona Tank. Tribute of Respect.

Whereas, Almighty God, in his divine power and wisdom, has seen proper to take from earth our worthy principal, C. M. Watson. Be it Resolved, That we, the teachers of the Colored School, lose in him an undaunted leader, a tender friend, a christian brother.

That we ever cherish his memory and sympathize with the loving wife and little children he has left behind. Be it further Resolved, That we tender a copy of these resolutions to the bereaved family of the deceased, and that a copy be given the press of our city for publication.

R. L. YANCEY,  
H. E. LOCKERT,  
W. H. GRANT,  
Committee of Teachers.

Y. M. C. A.

At the regular monthly meeting of the board of directors last night the present general secretary of the association was continued until January 1, 1893.

Tobacco will bring fine prices again this season, and the farmer will be largely "in it" this year. A number of crops have been bought in the barns about Providence.
